

 **NALINI** SS22

**THIS
IS US**

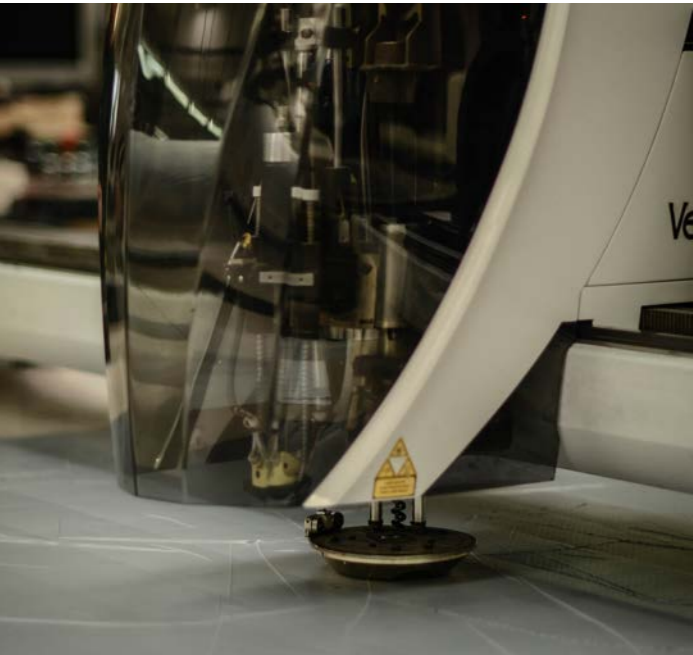

A story of life and sport, which turned into a story of entrepreneurship and development

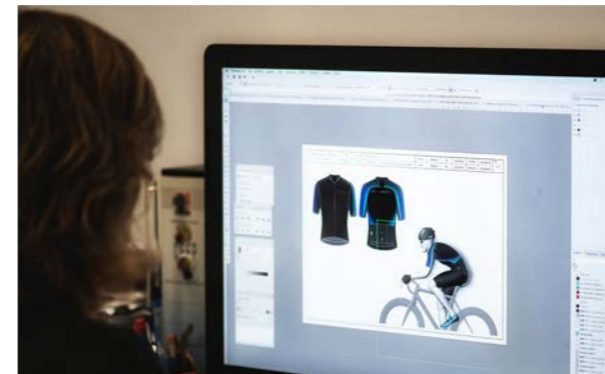

At the end of the 1960s Vincenzo Mantovani, a former professional cyclist, founded a craft workshop, which soon turned into an actual factory: MOA Sport.

Over the years MOA Sport has partnered with the greatest cycling champions and, under the leadership of Vincenzo's brother, Claudio, the company has kept growing and has consolidated its position as one of the leading suppliers to successful brands in the field of international cycling.

Today MOA Sport is an industrial company with an experience of over 50 years, which prides itself on its craftsmanship, its high quality and its attention to detail.

MOA Sport's highly specialized technicians and designers will guide you step by step through the development process and will use their experience to come up with solutions tailored to your needs.

ITALIAN QUALITY

Italian creativity, craftsmanship and expertise are just a few of the strong points at the base of the longevity of MOA Sport.

SUSTAINABILITY

 We use the renewable energy that we generate thanks to our photovoltaic panels on top of our buildings.

 We recycle and give new life to all the wastage resulting from production.

 For some articles of our collection and those of our clients' we use recycled fabrics and accessories.

ERGO LINE

Where's your
Finish Line?

Addressed to those who like speed and performance and wants to be fitted in a "second skin apparel".

COLOR & FUN LINE

Back To The Essential

We speak here to a rider who wants to stand out on the road with bright colours, for visibility and security reasons, but also for fun, because riding in a new kit is also this... is the pleasure to stand out with original colours and graphics. A mix of race fit and comfortable fit to be able to address to different needs.

"Conceived by cyclists for the cyclist "

In the development of each article we started from the needs linked to the discipline and the use that it was meant for, always bearing in mind the climatic and morphologic situations of use

The constant feedbacks of our consumers: amateurs and professional riders too, is the principal boost for our team of developers

This is also the reason why the lines' names have been changed, in order to be more specific and give some information about the use and the public to whom that line is addressed.

R&S Moa Sport

VENTURES LINE

Get Lost To Find Yourself

Addressed to the growing world of gravel for the use on long distances, each jersey presents a specific technical focus together with a larger number of pockets and a more regular fit.

SINGLE TRACK LINE

Keep The Wild In You

This line is meant primarily for MTB but for its characteristics it is adaptable and comfortable for rides on bike-lanes too.

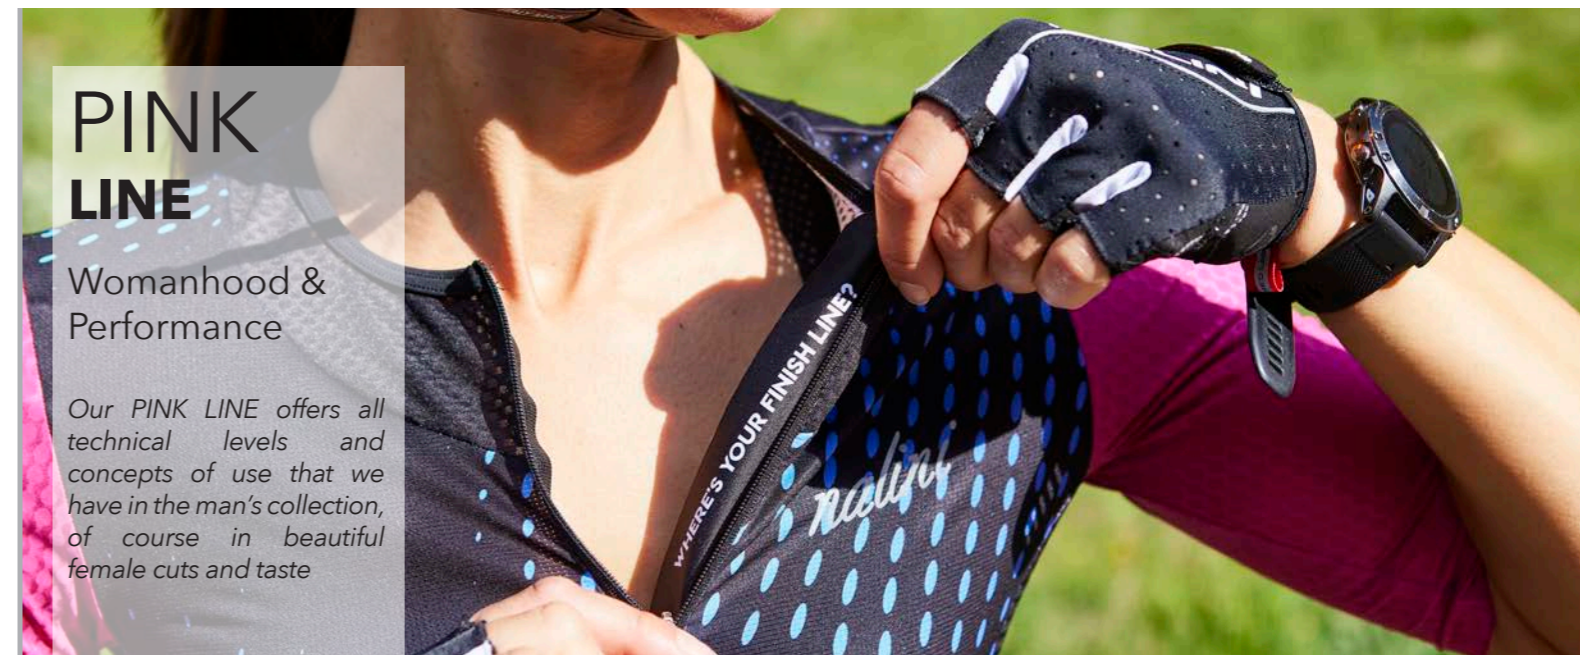

The lower parts are baggy shorts with some pockets, the jerseys are produced with anti-abrasion fabrics that enable them to carry a back sack without damaging the jersey or go through bushes without tearing threads on the jersey.

PINK LINE

Womanhood &
Performance

Our PINK LINE offers all technical levels and concepts of use that we have in the man's collection, of course in beautiful female cuts and taste

NEW ERGO SUIT

03114301100C000.10

Ergonomic and Aerodynamic skinsuit, which combines on the upper part a 3D striped fabric on shoulders and sleeves, frontal part in mesh for major breathability and a super lightweight fabric on the back.

On the lower part we have used a woven fabric with compression properties, abrasion-resistant and UV protective.

Maximum breathability on the upper part, practical horizontal opening.

High visibility reflective details.

Technical features:

- Striped fabric High Speed on shoulders and sleeves, for superior aerodynamics
- Mesh frontal panels for major breathability
- Woven Muscle-supportive fabric at the legs
- Full-length YKK® cam-lock zipper, with zipper cover and garage
- Seamless sleeves' hem, with elastic heat-sealing
- 3 rear pockets
- Bottom leg hem with elastic gripper and clean cut fabric insert inside
- Reflective details

Tecnicità:

- Struttura rigata del tessuto High Speed della parte alta con proprietà di aerodinamica
- Corpino anteriore in rete per maggiore ventilazione
- Zip lunga YKK® cam-lock, con garage e patellina
- Fondo manica senza cuciture fissato con termosaldatura elastica
- 3 tasche posteriori
- Metà fondo gamba con elastico grippante esterno e taglio al vivo interno gamba
- Dettagli rifrangenti

NEW ERGO LASER JERSEY

03106701100C000.10

This ergonomic jersey uses a Kinetech woven fabric with 3D structure that guarantees muscle support, aerodynamic performance and high UV protection. Small laser holes on shoulders and under-sleeves for a major ventilation and to dry moisture, and the use of a very light fabric on the back panel is also meant to enhance breathability and freshness.

Technical features:

- Iridescent 3D woven fabric on sleeves and shoulders
- Laser-cut holes on shoulders and on underarm area to enhance breathability and mild ventilation
- Lighter fabric on the back panel for enhanced breathability
- Full-length reverse YKK® cam-lock zipper
- Full-length zipper cover, with upper and lower zipper garage
- Silicone elastic gripper on the back
- Seamless heat-welded hem on front and sides
- Clean cut on sleeves hem
- 3 rear pockets with the iconic Nalini oblique cut + 1 additional pocket made of waterproof fabric, with an invisible zip
- Reflective piping around the rear pockets
- Reflective transfers on the front panel and on the central rear pocket

Tecnicità:

- Tessuto a navetta con struttura 3D iridescente su spalle e maniche
- Sotto-manica e spalla con fori laserati per garantire maggiore traspirazione e una leggera ventilazione interna
- Tessuto più leggero sul pannello posteriore per maggiore traspirabilità
- Zip lunga rovescia YKK® cam-lock
- Patella sotto-lampo lunga con zip garage sopra e sotto
- Elastico siliconato grippante a fondo maglia dietro
- Fondo maglia davanti e laterale con bordatura termoincollata e senza cuciture
- Fondo manica con taglio al vivo
- 3 tasche posteriori con taglio obliquo iconico Nalini +1 in tessuto idrorepellente con zip invisibile
- Piping rifrangente sul bordo delle tasche posteriori
- Transfer rifrangenti sul davanti e sulla tasca centrale posteriore

NEW ERGO FIT JERSEY

03114201100C000.10

Aerodynamic jersey with striped High Speed fabric on shoulder and sleeves. This texture has been proved in the wind-tunnel to be able to reduce air drag. Front panel made in mesh for major breathability and air circulation, and a super lightweight fabric on the back keeps the rider fresh and dry in the warmest days and heaviest climbs.

Technical features:

- Striped High Speed fabric on shoulders and sleeves
- Full-length reverse cam-lock YKK® zip
- Full-length zip cover and zip garage on top
- Silicone elastic gripper on the back
- Seamless heat-welded hem on front and sides
- 3 rear pockets with the iconic Nalini oblique cut + 1 additional pocket made of waterproof fabric, with invisible zip
- Reflective piping around rear pockets, and reflective transfer on central pocket and on front chest

Tecnicità:

- Spalle, maniche e parte alta della schiena in tessuto aerodinamico High Speed
- Zip lunga rovescia YKK® cam-lock
- Patella sotto lampo lunga con zip garage sopra
- Elastico siliconato grippante a fondo maglia dietro
- Fondo maglia davanti e laterale con bordatura termoincollata senza cuciture
- 3 tasche posteriori con taglio obliquo iconico Nalini + 1 in tessuto idrorepellente con zip invisibile
- Piping rifrangente sul bordo delle tasche posteriori e transfer

NEW ERGO BIB SHORT

03105101100C000.10

This bib encases the highest technologies available: woven kinetech fabric, laser cut, minimum impact of stitching, top of the gamma pad. The upper part in kinetech woven fabric with openings, obtained in laser cut, ensures stability and at the same time the utmost lightness.

The ergonomic shape on the lower part is obtained with minimum cuts for a sleek construction. The bottom is entirely made of Kinetech fabrics to provide a compressive fit: fabrics in Kinetech technology are so smooth and compact they almost feel like a second skin; in addition to their sun-protective, abrasion-resistant and partly water-repellent properties, they provide the rider with superior muscle support to ensure enhanced performance and quicker recovery.

Technical features:

- The bottom is entirely made of abrasion-resistant stretch Kinetech fabric, providing muscle compression and support, along with UPF + 50 protection
- Laser cut upper part without stitching and super light
- Reflective logos on back and sides
- Bottom leg hem with light perforated elastic with gripping structure

Tecnicità:

- Tessuto stretch Kinetech con particolari proprietà di compressione e supporto muscolare e protezione ai raggi solari + 50 UPF
- Corpino ottenuto da taglio laser, senza cuciture e super leggero
- Loghi rifrangenti laterali e posteriori
- Fondo gamba con elastico leggero e traforato grippante per struttura

VENTURES
LINE

Get Lost
To Find
Yourself

Addressed to the growing world of gravel for the use on long distances, each jersey presents a specific technical focus together with a larger number of pockets and a more regular fit.

NEW WOOL SS JERSEY

03102401100C000.10

Gravel Jersey made on the central body part with a blend of wool and Polyester which retains the properties of both yarns: thermal regulation thanks to the wool, and fast drying and freshness properties of the polyester.
Side panels and sleeves in super light and breathable fabric. 4 rear pockets.

Technical features:

- Main fabric in a blend of wool and polyester
- Sleeves in super light and abrasion resistant fabric
- Full-length YKK® cam-lock zip
- Full-length zip cover, with zip garage on top
- Silicone gripper at waist
- 3 rear pockets + one additional pocket made in water-repellent fabric and with a visible zip
- Reflective piping around the pockets
- Iridescent reflective details on front panel and on central rear pocket

Tecnicità:

- Tessuto principale misto lana e poliestere
- Maniche in tessuto leggerissimo e antiabrasivo
- Zip lunga cam-lock YKK®
- Patella sotto lampo lunga con zip garage sopra
- Fondo maglia con elastico interno grippante logato Nalini
- 3 tasche posteriori + 1 taschina in tessuto idrorepellente con zip a vista
- Piping rifrangente sopra le tasche
- Dettagli rifrangenti e cangianti a taschino sul davanti e sulla tasca centrale dietro

NEW RESPECT SS JERSEY

03102601100C000.10

We have called this jersey "respect" because it is made of a polyester 100 % recycled, super lightweight and with microholes. Sleeves and side panels are in anti abrasion fabric, to be resistant when eventually passing through bushes. Extra carrying capacity of 6 rear pockets positioned at a different height, the three more external ones in anti abrasion fabric.

Technical features:

- Main fabric in super lightweight with microholes
- Sleeves and side panels in abrasion resistant fabric
- Full-length YKK® cam-lock zipper
- Full-length zipper cover, with upper zipper garage
- External elastic at hem in microfiber with silicone inner gripper
- 6 rear pockets of different height, external ones in anti abrasion fabric
- Iridescent reflective details on front panel and on central rear pocket

Tecnicità:

- Tessuto principale in finezza 40 con microfori
- Maniche in tessuto leggero e antiabrasivo
- Zip lunga cam-lock YKK®
- Patella sotto lampo lunga con zip garage sopra
- Fondo maglia con elastico in lunghezza in microfibra con puntini grippanti in silicone
- 6 tasche posteriori di altezze diverse, le 3 più esterne in tessuto indemagliabile
- Dettagli rifrangenti cangianti a taschino sul davanti e sulla tasca centrale dietro

NEW SUN BLOCK JERSEY

03106601100C000.10

This jersey is made of a pre-dyed fabric in polyamide with elastane, the touch of this fabric is particularly soft and comfortable, it guarantees a high UV protection from sunshine. The weight of the fabric is in this case slightly higher but we have granted air circulation with a lighter fabric on side panels and some laser holes in the underarm area.

5 rear pockets: three in the classic rear position and two on the side panels, for a maximum carrying capacity. Reflective iridescent details for high visibility.

Technical features:

- Compact and hydrophilic main fabric pre-dyed
- Side panels in super light fabric and underarm insert with ventilation holes
- Full-length reverse cam-lock YKK® zip
- Full-length zip cover and zip garage on top
- Microfiber elastic at waist with silicone microdots
- 5 pockets 3 traditional rear pockets +2 side pockets in resistant mesh
- Holographic reflective details on front and back

Tecnicità:

- Tessuto compatto tinto, resistente e traspirante e ad asciugatura rapida
- Fianchi in tessuto super leggero con inserto sottomanica perforato
- Zip lunga cam-lock YKK®
- Patella sottolampo lunga con zip garage sopra
- Fondo maglia con elastico in lunghezza in microfibra con puntini grippanti in silicone
- 5 tasche, 3 posteriori 2 sui fianchi in rete resistente
- Dettagli rifrangenti cangianti a taschino sul davanti e sulla tasca centrale dietro

GRAVEL SHIRT

03107801100C000.10

This shirt is the best interpretation of a new mood and a new manner of cycling in gravel context. It is a T-Shirt simple and essential, but precious for the fabrics used. Same as the wool jersey it is made on the central body part with a blend of wool and Polyester which retains the properties of both yarns: thermal regulation thanks to the wool, and fast drying and freshness properties thanks to the polyester. Sleeves in resistant and anti abrasion fabric adapt to be used in woods and through bushes.

Technical features:

- Main fabric in a blend of wool and polyester
- Sleeves in resistant fabric and anti abrasion fabric
- Silicone gripper at waist
- Side zipped pocket for essentials

Tecnicità:

- Tessuto principale misto lana e poliestere
- Maniche in tessuto resistente e anti abrasivo

BAS LASER BIB SHORT

03001201100C000.10

This bibshort is engineered from a single fabric, keeping the number of cuts and seams to a minimum, whilst preserving a high technical level of the garment. The fabric used provides a compressive fit along with a very soft touch. It also keeps the body fresh and dry, and ensures superior breathability. The laser clean cut used all over with no edging ensures a very neat-looking garment, where the philosophy is less is more. A light silicon printing on inside ensures the gripping effect and an essential pocket has been added at the back upper part.

Technical features:

- Compressive Lycra Sport fabric providing optimal muscle support
- Clean cut on braces, bibs and tights, with seamless hems
- Lightweight elastic braces
- Silicone printing with gripping effect at legs' hem
- Reflective iridescent details
- 3 back pocket

Tecnicità:

- Supporto muscolare dato dalla capacità compressiva della Lycra Sport
- Bretelle, corpino e pantalone completamente lavorati con taglio al vivo quindi prive di cuciture ai bordi
- Bretelle in elastico leggero
- Fondo gamba con stampa siliconica grappante
- Dettagli cangianti rifrangenti
- Tasca per effetti personali sul corpino dietro

BAS REFLEX BIB SHORT

03002101100C000.10

This model has been designed to be a very breathable summer bibshort with large portions of reflective surfaces to enable overnight rides when the rider can be sure to be well visible for the other riders and the eventual cars. The reflective fabric used has microholes that ensure the breathability and the ventilation, the side panel is in a textured fabric and all is assembled with flatlock stitching to ensure maximum comfort.

Technical features:

- Large Reflective portion on both legs
- Reflective logos
- 4-ways stretchable anatomical pad
- Flat stitching for best comfort
- At legs' hem 65 mm elastic with silicone gripper

Tecnicità:

- Fascia alla gamba di tessuto rifrangente microforato
- Loghi rifrangenti
- Fondello anatomico bielastico
- Cuciture piatte per maggior comfort
- Al fondo gamba elastico comfort h. 65 mm con puntinatura in silicone all'interno

COLOR & FUN LINE

Back To The Essential

We speak here to a rider who wants to stand out on the road with bright colours, for visibility and security reasons, but also for fun, because riding in a new kit is also this... Is the pleasure to stand out with original colours and graphics.

A mix of race fit and comfortable fit to be able to address to different needs.

NEW STRIPES JERSEY

03102001100C000.10

Short sleeve jersey made of a lightweight and micro perforated breathable fabric. The mesh inserts in the underarm area and in the side panels ensure increased ventilation, and leave the skin dry and fresh. There is a soft elastic at the sleeves' hem and elastic with silicone dots at the hips and back. This jersey combines a very stylish and modern graphical look with the indispensable technical properties for a summer jersey.

Technical features:

- Micro-perforated fabric on the front panel, and breathable mesh in the underarm area and at the sides
- Elastic gripper at bottom and side hem
- Comfortable elastic band at sleeves' hem
- Reverse YKK® cam-lock zipper
- 3 functional rear pockets

Tecnicità:

- Tessuto microforato per il corpo e rete traspirante nel sottomanica e nelle bande laterali

NEW SPEED JERSEY

03113701100C000.10

Race-fit jersey made of a semi open-structured elastic fabric for improved breathability. The ergonomic cut at the shoulders ensures freedom of movement and a perfect fit on bike position. The cut of the front panel has been engineered to provide a perfect fit. The textured elastic mesh inserts provide greater breathability, making the jersey ideal for hotter days.

Technical features:

- Ergonomic sleeve and back construction
- Side inserts in breathable mesh
- Zipper cover
- Comfortable elastic band at sleeves' hem
- Elastic band with silicone gripper at the waist
- Reverse YKK® cam-lock zipper
- 3 rear pockets made of mono-elastic fabric

Tecnicità:

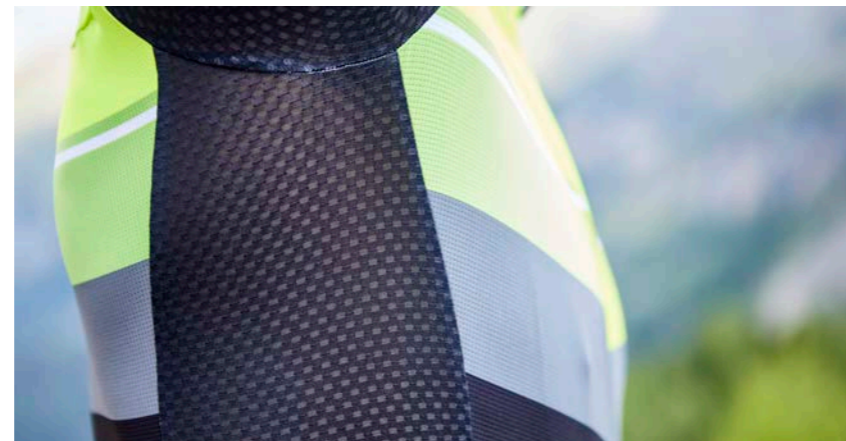

- Inserti laterali in rete traspirante
- Patella sotto lampo

NEW COLOR BIB SHORT

03109001100C000.10

Ergonomic bib shorts which presents on side panels a textured and more breathable lycra. The upper part construction privileges the lightness thanks to the use of mesh, an innovative three dimensional bi-color elastic enriches the aesthetical aspect.

The elastic in height 65 mm at legs' hem, allowed us to give some color options to create a total look kit with our jerseys and it is provided on the inside of micro silicon dots for a gripping effect.

Technical features:

- Textured fabric at the side panels which improves the breathability
- Upper back panel made of breathable elastic mesh
- Braces in 3-D structure and bi-color elastic
- Lightweight printed microfiber elastic band with silicone inner gripper at legs' hem
- Reflective transfers at the back and side panels

Tecnicità:

- Tessuto operato su bande laterali per una maggiore traspirabilità
- Pannello posteriore in rete traspirante ed elastica
- Bretelle in elastico con struttura 3D e bicolore
- Elastico stampato con silicone grippante in microfibra leggera a fondo gamba
- Transfer rifrangente posteriore e laterale

SINGLE TRACK LINE

Keep The Wild in You

This line is meant primarily for MTB but for its characteristics it is adaptable and comfortable for rides on bike-lanes too.

The lower parts are baggy shorts with some pockets, the jerseys are produced with anti-abrasion fabrics that enable them to carry a back sack without damaging the jersey or go through bushes without tearing threads on the jersey.

NEW CROSS

03102501100C000.10

MTB Jersey with frontal full zip, short sleeve entirely made with an abrasion resistant and quick-drying fabric. With three rear pockets for a use not exclusively on MTB.

Technical features:

- Reverse cam-lock zipper
- Elastic band with silicone gripper at the waist
- 3 back pockets
- Half-body zipper cover

Tecnicità:

- Zip YKK® rovescia con tiretto cam-lock
- Elastico interno grippante al fondo maglia

NEW LADY ERGO FIT JERSEY

03115501100C000.10

Aerodynamic jersey with a race fit for the most demanding cyclist who wants a second skin of performance and elegance. We have used the striped High Speed fabric on shoulder and sleeves, the frontal part is in semi-open fabric for major breathability and air circulation, this together with a super lightweight fabric on back ensures to keep the rider fresh and dry also on the most warm days and heaviest climbs.

Technical features:

- Striped High Speed fabric on shoulders and sleeves
- Full-length reverse cam-lock YKK® zipper
- Full-length zipper cover, with upper zipper garage
- Silicone elastic gripper on the back
- Seamless heat-welded hems to the front and the sides
- 3 rear pockets with the iconic Nalini oblique cut + 1 additional zipped pocket made of waterproof fabric
- Reflective piping around the rear pockets, and reflective transfer on the central pocket and at chest

Tecnicità:

- Spalle, maniche e parte alta della schiena in tessuto aerodinamico High Speed
- Zip lunga rovescia YKK® cam-lock
- Patella sotto lampo lunga con zip garage sopra
- Elastico siliconato grippante a fondo maglia dietro
- Fondo maglia davanti e laterale con bordatura termoincollata senza cuciture
- 3 tasche posteriori con taglio obliquo iconico Nalini + 1 tasca con zip in tessuto idrorepellente
- Piping rifrangente sul bordo delle tasche posteriori e transfer
- Rifrangente alla tasca centrale e al taschino

weather
conditions*

Windproof, rainproof, mid-warm and protective, the garments in the Full Season line are ideal for cycling all year round, in all weather conditions.

Easy to wear and to carry with you, the garments in this line will ensure that kind of protection that on bike you often need to carry with you in many situation.

WR MAN JACKET

03053101100C000.10

Windproof and water repellent jacket entirely made of a three layer fabric with WR treatment. The properties of this fabric are highly technical: protection from wind and water with a 20.000 water column, good breathability from inside towards outside and stretchability. The lightness despite the three layers give the possibility to pack it and carry it in a pocket. The partial taping on seams of the shoulders give the garment medium protection from rain.

Technical features:

- 3layer fabric, weight 90 gr/m² with D.W.R. treatment (water column 20000 mm)
- Thermo taped set-in sleeves
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Waterproof fabric sleeve on hem
- Reflective logos in front and back side
- Silicone elastic band at waist
- 3 rear pockets

Tecnicità:

- Tessuto 3 strati da 90 gr/m² con trattamento idrorepellente colonna d'acqua 20000 mm
- Termoastratura su spalle e giromanica
- Protezione interna antivento con garage zip
- Interno collo in tessuto confortevole
- Fondo manica in tessuto waterproof
- Logo rifrangente anteriore e posteriore
- Zip anteriore rovescia con tiretto cam lock
- Elastico grippante con silicone al fondo
- 3 tasche posteriori

ECO WIND JACKET

03012901100C000.10

From the experience done with our group of Ambassadors in the circuits of the Granfondo all over Italy, we have developed this windproof and water repellent jacket obtained from a three layer fabric with membrane. This fabric including the membrane is obtained from 100% recycled polyester. The WR treatment on outer surface plus the partial thermo-taping on shoulders give to this jacket not only properties of wind protection but a mid level of protection from rain too.

Technical features:

- 3 layer fabric, ECO by Zero Wind, wind and water refraction with D.W.R. treatment
- Thermo taped raglan sleeves
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Silicone elastic band at waist
- Three rear pockets

Tecnicità:

- Tessuto ECO di Zero Wind, 3 strati resistente a vento ed acqua e traspirante
- Manica raglan con termonastratura
- Patella di protezione interna antivento con zip garage
- Interno collo in tessuto confortevole
- Elastico grippante con silicone al fondo
- 3 tasche posteriori

Fitting • Vestibilità

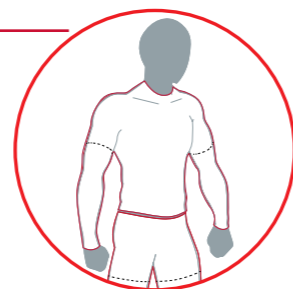

Fitting is one of the main features of technical garments, which must ensure maximum freedom of movement. Moa Lab has developed two different fitting styles according to body anatomy and use.

La vestibilità è una delle caratteristiche principali dei capi tecnici, che deve assicurare la massima libertà di movimento. Moa Lab ha sviluppato due diversi tipi di fitting in funzione della conformazione e delle condizioni di utilizzo.

RACE

Anatomic and ergonomic-fit garments for demanding cyclists.

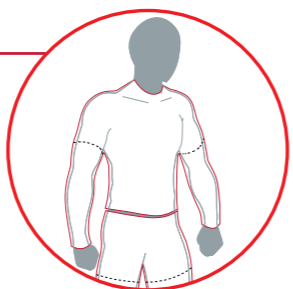

Capi con taglio anatomico ed ergonomico per ciclisti esigenti.

REGULAR

Standard-fitting garments with particular focus on comfort.

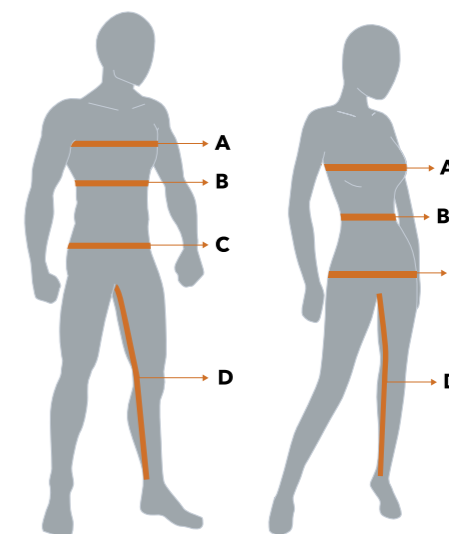

Capi meno attillati con una particolare attenzione al comfort.

Sizes • Misure

The chart indicates the correspondence between Moa Lab sizes and body measurements expressed in centimetres. In order to find the exact size, measurements should be taken on the naked body, holding the measuring tape close to the body but not tight.

La tabella indica la corrispondenza delle taglie Moa Lab con le misure in centimetri del proprio corpo. Per determinare la taglia con precisione, le misure vanno prese sul corpo nudo; il metro deve aderire perfettamente alla pelle, senza stringere.

Pads • Fondelli

The Pad has a protective function and therefore it is considered one of the most important contact points between the cyclist and the bicycle.

It is good to keep in mind that little or excessive protection can develop various diseases for the cyclist: from nerve inflammation up to real circulatory problems and complications. You can protect yourself without neglecting comfort and performance! Moa Sport has been among the first to introduce the pad in cycling clothing. Today's know-how of the company is based on almost 50 years of collaboration with professional teams as Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., and their champions as Hindurain, Ulrich, Pantani, Chiappucci, Vinokourov, Valverde, Nibali, Aru and many others. They have contributed with precise indications and feedback to the development of the pad, to make it really functional for protection and performance.

In all these years professional riders have helped Moa Sport to understand how to improve this essential part of the rider's equipment, but also we have learnt how it can be an accessory totally subjective.

For this reason, we have developed pads with different protections, densities, technologies and materials always with a particular attention to details... Because as it is known, they make the difference!

All our pads are produced with Oeko-tex® certified materials. Oeko-tex® is a certification that safeguards users from the presence of dangerous substances in the fabrics. Moreover, our fabrics and foams are all antibacterial, light, breathable, hydrophilic, and soft and they are assembled with modern technology and design.

In the range of the pads branded Nalini/Moa, you will surely find one that suits your saddle and your riding activity.

Per il ruolo protettivo che svolge, il Fondello (anche conosciuto come Pad o Chamois), è tra i punti di contatto tra ciclista e bicicletta, forse il più importante!

È bene tenere presente che, poca o eccessiva protezione possono sviluppare svariate patologie in chi pratica ciclismo: da infiammazioni di natura nervosa fino a veri e propri problemi circolatori con relative complicanze. Proteggersi sì, ma senza trascurare comfort e prestazione! Moa Sport è stata tra i primi ad aver introdotto il fondello nell'abbigliamento tecnico per ciclisti; il know-how dell'azienda è dovuto a quasi 50 anni di collaborazione con Team professionistici come Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., e al dialogo con i campioni che hanno militato in queste squadre: da Hindurain, Ulrich, Pantani, Chiappucci fino ad arrivare ai Vinokourov, Valverde, Nibali, Aru e centinaia di altri grandi atleti che puntuali hanno indirizzato Moa Sport nella creazione di prodotti di altissima qualità, sia per la protezione sia per la performance.

Tutti questi anni al fianco di grandi professionisti hanno aiutato Moa Sport a capire quanto un fondello possa essere indispensabile per praticare ciclismo, ma anche quanto sia un accessorio assolutamente soggettivo.

Per questo motivo sono stati sviluppati fondelli con diverse protezioni, densità, tecnologie e tessuti, sempre con una particolare attenzione ai dettagli... Perché si sa, fanno la differenza!

Tutti i fondelli di Moa Sport sono prodotti con materiali certificati di aziende certificate Oeko-tex®, ente che tutela la qualità dei materiali. Questa prerogativa rende i prodotti eccellenti, per quanto riguarda antibattericità, leggerezza, traspirabilità, idrofilia e morbidezza ma anche per tecnologia e design.

Nella gamma di fondelli firmati Nalini/Moa Sport troverete sicuramente quello adatto alla vostra sella e alla vostra attività sportiva.

Randonné Carbon Lime Man

015.100.00763

Randonné is a next-generation pad, specifically designed for long-distance rides such as Randonnés - as the name suggests. The use of reticulated foam offers maximum support in all three basic saddle positions: descending, climbing and racing. Besides providing support, the foam suits perfectly all riding movements and positions.

This pad combines hygiene, comfort and anatomical design. The microfiber fabric guarantees hygiene, softness and moisture control. Moreover, carbon threads in the surface fabric of the pad boost heat regulation and microcirculation, hence providing improved temperature control and minimizing chafing.

Technical features:

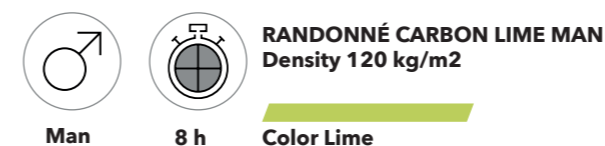

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Carbon fibers
- Natural antibacterial treatment
- Hydrophilic microfiber fabric
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance rides (randonnés)

Il Randonné è un fondello di nuova generazione studiato specificatamente per uscite molto lunghe come le Randonné. L'utilizzo delle spugne reticolate offre il massimo del supporto in tutte e tre le posizioni classiche della pedalata: descending, climbing e racing. Tali spugne non solo danno supporto, ma si adattano perfettamente ai movimenti e alle posizioni del ciclista.

Questo fondello abbina insieme comfort, anatomia e soprattutto igiene, grazie alla microfibra che lo mantiene asciutto e che conferisce morbidezza. Inoltre, l'inserimento di fili di carbonio presenti nel tessuto di copertura del fondello permettono una migliore termoregolazione e micro-circolazione garantendo una temperatura più controllata e diminuendo il rossore da frizione.

Tecnicità:

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Fibre in carbonio
- Trattamento antibatterico naturale
- Tessuto microfibra idrofilo
- Supporto High Impact foam reticolata
- Leggero
- Alta traspirabilità
- Adatto per lunghissimi percorsi (Randonné)

Granfondo Pro Man 120 Q-Skin

015.100.00764

The Granfondo pad offers a combination of state-of-the-art technology, from high-quality materials to an innovative construction. The padding is manufactured by progressive cutting of a high-density reticulated foam, with different thicknesses based on body weight and pressure points, to ensure maximum support to all bodily contact with the saddle. Besides providing support, the foam also ensures breathability and softness, so that the pad never feels heavy or bulky.

This pad combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, and the microfiber fabric guarantees softness and moisture control. Moreover, the bio-ceramic fibers in the fabric of the pad touching the skin boost heat regulation (leaving the skin pleasantly fresh) and microcirculation, hence providing improved temperature control and minimizing chafing.

Technical features:

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Bio-ceramic fibers integrated in the microfiber
- Natural antibacterial treatment
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance competitive/amateur rides

Il Granfondo è un fondello che integra un insieme di tecnologie di ultima generazione, dai materiali di utilizzo alla costruzione. L'inserimento dell'imbottitura avviene partendo da un sistema di taglio progressivo di una schiuma reticolata ad altissima densità, modulando lo spessore in base al peso e alla pressione dei vari punti di contatto e garantendo il massimo supporto su tutti i punti di appoggio tra corpo e sella. Tali spugne non solo danno supporto ma garantiscono anche traspirabilità e morbidezza, per un fondello che non risulta mai invadente e pesante.

Questo fondello abbina insieme igiene, comfort e anatomia, grazie al trattamento antibatterico, alla microfibra che lo rende morbido e lo fa rimanere asciutto. L'inserimento di filato bioceramico presente nel tessuto del fondello a contatto con la pelle consente una migliore termoregolazione e aumenta la micro-circolazione garantendo una temperatura più controllata e diminuendo il rossore da frizione.

Tecnicità:

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Fibre bioceramiche inserite nella microfibra
- Trattamento antibatterico naturale
- Supporto High Impact foam reticolata
- Leggero
- Alta traspirabilità
- Adatto per lunghi percorsi agonistici/amatoriali

Percorsi Misti 100 Man

015.100.00765

The Percorsi Misti pad offers a combination of state-of-the-art technology, from high-quality materials to an innovative construction. The padding is manufactured by progressive cutting of a high-density foam, with different thicknesses based on body weight and pressure points, to ensure maximum support to all bodily contact with the saddle. This supportive pad is especially suited for mixed terrain rides, where the athlete often has to get in and out of the saddle.

It combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, the microfiber fabric guarantees softness, and the structure of the fabric touching the skin provides fast moisture wicking, leaving you feeling dry at all times.

Technical features:

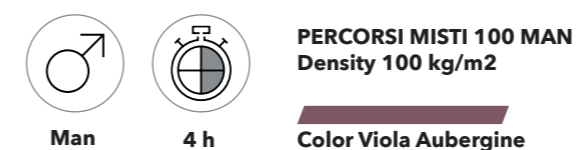

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Structured microfiber tissue
- Natural antibacterial treatment
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance gravel and mixed terrain rides

Il fondello Percorsi Misti integra un insieme di tecnologie di ultima generazione, dai materiali di utilizzo alla costruzione. L'inserimento dell'imbottitura avviene partendo da un sistema di taglio progressivo di una schiuma ad alta densità modulando lo spessore in base al peso e alla pressione dei vari punti di contatto e garantendo il massimo supporto su tutti i punti di contatto tra corpo e sella. Il supporto dato da questo fondello si adatta particolarmente a percorsi misti dove il ciclista spesso si solleva dalla sella.

Abbina assieme igiene, comfort e anatomia, grazie al trattamento antibatterico, alla microfibra che lo rende morbido e la struttura del tessuto a contatto con la pelle garantisce una rapida dissipazione dell'umidità e mantiene la sensazione di asciutto.

Tecnicità:

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Tessuto strutturato in microfibra
- Trattamento antibatterico naturale
- Supporto High Impact foam reticolata
- Leggero
- Alta traspirabilità
- Adatto per lunghi percorsi misti/gravel

Serie 3D M 80 Carbon Lime Gel

015.100.00423

Our new pad with composite structure combines hygiene, comfort and anatomical design. The microfiber fabric guarantees hygiene, softness and moisture control. Moreover, carbon threads in the surface fabric of the pad boost heat regulation and microcirculation, hence providing improved temperature control and minimizing chafing.

The pad is anatomically shaped, and makes use of high-impact foams, with gel cushioning strategically located at the sit bones, to ensure maximum vibration and shock absorption.

Technical features:

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Natural antibacterial treatment
- Microfiber fabric with carbon fibers
- Backing: High Impact foam
- Gel cushioning for the sit bones
- Lightweight
- High breathability
- Suitable for road racing, mountain biking and bicycle tourism

Il nuovo fondello con struttura differenziata unisce igiene, comfort e anatomia, grazie alla microfibrina che lo rende morbido e lo fa rimanere asciutto. L'inserimento di fili di carbonio presenti nel tessuto di copertura del fondello permettono una migliore termoregolazione e micro-circolazione garantendo una temperatura più controllata e diminuendo il rossore da frizione.

Infine l'utilizzo di schiume High impact e l'accurato posizionamento di cuscinetti in gel nella zona ischiatica garantiscono il massimo assorbimento delle vibrazioni e degli urti.

Tecnicità:

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Trattamento antibatterico naturale
- Tessuto microfibrina con fibre di carbonio
- Supporto High Impact foam
- Inserti cuscinetti in gel zona ischiatica
- Leggero
- Alta traspirabilità
- Adatto per strada e MTB per cicloturista

Color Lime

Serie 2.6 M 8/100 Tiger

015.100.00747

Engineered and designed specifically for men, this pad uses highly elastic materials to provide a perfect fit.

The hydrophilic properties of the components ensure excellent breathability and quick moisture wicking, to leave your skin feeling fresh. The long front padding provides superior comfort and freedom of movement.

Technical features:

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- High breathability
- Natural antibacterial treatment
- High-density support
- Lightweight
- Suitable for medium-distance road/MTB rides

Ideato e disegnato per l'anatomia maschile, questo fondello è caratterizzato da un'ottima vestibilità, grazie all'elasticità dei materiali utilizzati.

Le qualità idrofile dei componenti consentono un'eccellente traspirabilità e una rapida dissipazione dell'umidità con una conseguente sensazione di freschezza. La parte anteriore allungata permette un comfort superiore e maggior libertà nel movimento.

Tecnicità:

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Alta traspirabilità
- Trattamento antibatterico naturale
- Supporto alta densità
- Leggero
- Adatto per percorsi medi road/MTB

Nalini Custom Teamwear

Technical and innovative solutions, essential lines: the Teamwear collection is designed to ensure the best performance on two wheels, without sacrificing comfort and safety.

These garments stand out for their wearability and freedom of movement, thanks to the use of light and adherent fabrics, developed specifically to meet every effort and at the same time guarantee maximum breathability.

The Teamwear collection is a 100% Made in Italy product, created entirely at Moa Sport, which thanks to decades of experience in contact with professional athletes, uses a scrupulous and innovative manufacturing process, with Oeko-Tex certification.

*From the competitive cyclist who explicitly seeks a technical and performing line, to those who simply have the passion for two wheels, the three lines **Race**, **Ride** and **Comfort** offer exclusive solutions with three levels of technicality that meet the specific needs of each type of use.*

Soluzioni tecniche ed innovative, linee essenziali: la collezione Teamwear è studiata per favorire la migliore performance su due ruote, senza rinunciare a comodità e sicurezza.

Capi che si distinguono per vestibilità e libertà di movimento, grazie all'uso di tessuti leggeri e aderenti, sviluppati specificatamente per assecondare ogni sforzo e allo stesso tempo garantire la massima traspirabilità.

La collezione Teamwear è un prodotto 100% Made in Italy, creato interamente presso Moa Sport, che grazie a decenni di esperienza a contatto con atleti professionisti, si avvale di un processo di lavorazione scrupoloso ed innovativo, con certificazione Oeko-Tex.

Dal ciclista competitivo che cerca esplicitamente una linea tecnica e performante, a chi ha semplicemente la passione per le due ruote, le linee **Race**, **Ride** e **Comfort** offrono soluzioni esclusive con tre livelli di tecnicità che rispondono alle esigenze specifiche di ogni tipo di utilizzo.
